# = change	Revised/Approved October 28, 2023		P1
<u>ITEM</u>	GOALS and ACTION ITEMS	<u>WHO</u>	WHEN
EDUCATION	Goal A: Educate community and public about lake management concerns.		
	Continue community events to encourage & educate the community about lake conservation practices.	Jordan Lake District Adams LWCD	ongoing
#	Publish educational information on Lake District Website and periodic mailings to district members.	District Advisory Committee	ongoing
	3. Update and/or place informational signs at all public access sites about actions citizens can take to improve/maintain water quality.	Jordan Lake District	completed 2020
	Maintain educational exotic species signs at boat landing.	Adams LWCD, WDNR Jordan Lake District	ongoing
	5. Provide education for lake users, lakefront owners & watershed community on identification & control of exotic species by publication & website information.	Adams LWCD, WDNR Jordan Lake District	ongoing
#	6. Develop & distribute an informational packet regarding lake issues, water quality, and best management practices to watershed citizens and businesses.	District Advisory Committee	2024
	7. Request that lakefront property owners not to use fertilizers or chemicals within 200 feet of the water.	Jordan Lake District	ongoing
	8. Contact other organizations to get information about similar lakes, then contact those lakes to gain information about how they handle water quality issues.	Jordan Lake District	ongoing
	9. Publish information on hand-harvesting of aquatic plants of not more the 30 foot wide corridor (for each 100' of shoreline) for access & viewing on lakefront properties to encourage landowners to limit clearing nearshore water areas.	Jordan Lake District WDNR	completed 2009
#	10. Request that lake users catch & release fish, especially predator fish.	Fish Committee	ongoing

	critical habitat areas.		2009

			P3
	Water Quality Cont'd	WHO	WHEN
	7. Set up study protocol and parameters to investigate impact of septic systems	Adams LWCD, WDNR	?
	and spring locations on lake water quality.		
#	8. Contact UW Madison Limology Dept to determine if District can partner with them	Jordan Lake District	2024
	on any water quality issues.		
#	Contact UW Steven Point to determine what water quality factors could be	Jordan Lake District	2024
	monitored and measured on a regular schedule.		
#	10. Investigate and conduct water toxic test for algae conditions if/when need exists.	Jordan Lake District	When needed
WATER QUALIT	Y Goal B: Restore natural shore conditions in riparian areas & incorporate		
	stormwater runoff protection.		
	Conduct shoreland habitat assessment using WDNR protocol.	Adams LWCD	Completed 2016
	2. Require waterfront owners to comply with the state requirements of	Adams LWCD	ongong
	for shore buffer & stormwater runoff.		
	If available, help obtain funding to assist in installation of shore restoration & runoff management practices.	Adams LWCD	?
	runon management practices.		
#	4. Work with LWCD, WDNR and Plan & Z to set new High Water Mark	Jordan Lake District	2024
<u>ITEM</u>	GOALS and ACTION ITEMS	<u>WHO</u>	WHEN
AQUATIC	Goal A: Revise aquatic plant management plan to improve water quality &		
SPECIES MAG'T	saftey.		
IVIAGI			
	Continue to chemically spot-treat for EWM in Jordan Lake after evaluating need at	Jordan Lake District	ongoing
	end of prior year. Acreage needed for treatment has been declining in the last few	WDNR	-
	years. Reduce treatable acres in 3 years to no more than 6 acres per year.	Adams LWCD	

			P4
	Aquatic Species Mag't Cont'd	WHO	WHEN
	2. Other options for controlling EWM not appropriate for Jordan Lake: (a) winter	Jordan Lake District	completed
	drawdown not possible since Jordan Lake is a natural lake; (b) mechanical		
	harvesting at this time not appropriate due to patchy nature of current EWM		
	distribution & considering disturbance of in-water habitat that can be caused by		
	mechanical harvesting.		
	3. Educate & encourage lake users to hand-pull invasive plants by having on-site	Jordan Lake District	ongoing
	training to assist in identification, developing fact sheet about timing & methods,	WDNR	
	and posting information on website& around the lake.	Adams LWCD	
#	4. Vary chemical used to treat EWM to avoid building EWM tolerance to chemical.	Jordan Lake District	ongoing
<u>ITEM</u>	GOALS and ACTION ITEMS	<u>WHO</u>	WHEN
AQUATIC	Goal B: Control current invasive species (Eurasian Watermilfoil and Curly-		
SPECIES	leaf Pondweed) and prevent infection by other exotic aquatics.		
MAG'T	, ,		
	1. Control current invasives species by monitoring public landing (CB/CW)	Jordan Lake District	ongoing
		Adams LWCD, WDNR	
	2. Continue to evaluate ongoing plan for invasive species control & prevention.	Jordan Lake District	ongoing
	Consider diver-assisted suction harvesting for scattered invasives.	Adams LWCD, WDNR	
#	3. Increase CB/CW hours of monitoring by 10%	Jordan Lake District	2024
	4. Recruit, train & schedule group of volunteers to monitor lake for invasive species.	Jordan Lake District	ongoing
	5. Conduct a trial process of hand-harvesting and compare to results of chemical	Jordan Lake District	2009
	spot treatment for management of Eurasian watermilfoil.		complete
	6. Recruit, train & schedule group of volunteers to participate in WDNR's Clean Boats,	Jordan Lake District	ongoing
	Clean Waters program. If volunteers become unavailable, apply for WDNR grant to	Adams LWCD, WDNR	
	conduct CBCW monitoring with hired personnel.		
	7. Conduct periodic aquatic plant survey every 5 years.	Jordan Lake District	ongoing
		Adams LWCD, WDNR
