| <u>ITEM</u> | GOALS and ACTION ITEMS | <u>WHO</u> | <u>WHEN</u> |
| EDUCATION | Goal A: Educate community and public about lake management concerns. | | |
| | Continue community events to encourage & educate the community about lake conservation practices. | Jordan Lake District Adams LWCD | ongoing |
| | lake conservation practices. | Additio EVVOD | |
| | Publish educational information on Lake District Website and periodic mailings to district members. | Jordan Lake District | ongoing |
| # | Update and/or place informational signs at all public access sites about actions citizens can take to improve/maintain water quality. | Jordan Lake District | completed 2020 |
| | | | |
| | 4. Maintain educational exotic species signs at boat landing. | Adams LWCD, WDNR Jordan Lake District | ongoing |
| | 5. Provide education for lake users, lakefront owners & watershed community on | Adams LWCD, WDNR | ongoing |
| | identification & control of exotic species by publication & website information. | Jordan Lake District | |
| # | 6. Develop & distribute an informational packet regarding lake issues, water quality, and best management practices to watershed citizens and businesses. | Adams LWCD Jordan Lake District | 2021 |
| | 7. Request that lakefront property owners not to use fertilizers or chemicals within 200 feet of the water. | Jordan Lake District | ongoing |
| | Contact other organizations to get information about similar lakes, | Jordan Lake District | ongoing |
| | then contact those lakes to gain information about how they handle water quality issues. | | |
| | 9. Publish information on hand-harvesting of aquatic plants of not more the 30 foot wide corridor (for each 100' of shoreline) for access & viewing on lakefront | Jordan Lake District WDNR | completed |
| | properties to encourage landowners to limit clearing nearshore water areas. | WDIVIT | 2009 |
| | 10. Request that lake users catch & release fish, especially predator fish. | Jordan Lake District local citizens | ongoing |

| AQUATIC SPECIES | Goal A: Revise aquatic plant management plan to improve water quality & | | |
| MAG'T | saftey. | | |
| WAG I | | | |
| | 1. Continue to chemically spot-treat for EWM in Jordan Lake after evaluating need at | Jordan Lake District | ongoing |
| | end of prior year. Acreage needed for treatment has been declining in the last few | WDNR | |
| | years. Reduce treatable acres in 3 years to no more than 6 acres per year. | Adams LWCD | |
| | 2. Other options for controlling EWM not appropriate for Jordan Lake: (a) winter | Jordan Lake District | completed |
| | drawdown not possible since Jordan Lake is a natural lake; (b) mechanical | | • |
| | harvesting at this time not appropriate due to patchy nature of current EWM | | |
| | distribution & considering disturbance of in-water habitat that can be caused by | | |
| | mechanical harvesting. | | |
| | 3. Educate & encourage lake users to hand-pull invasive plants by having on-site | Jordan Lake District | ongoing |
| | training to assist in identification, developing fact sheet about timing & methods, | WDNR | 01.909 |
| | and posting information on website& around the lake. | Adams LWCD | |
| | Determine the cost in money & time required to implement propagration of milfoil | Jordan Lake District | Drop |
| | weevils as possible additional control for EWM population. | Golden Sands, WDNR | 2706 |
| | E. Consider the entire of professional band milling of EWM | Jordan Lake District | Drop |
| | Consider the option of professional hand pulling of EWM | Jordan Lake District | Drop |
| <u>ITEM</u> | GOALS and ACTION ITEMS | <u>WHO</u> | <u>WHEN</u> |
| AQUATIC | Goal B: Control current invasive species (Eurasian Watermilfoil and Curly- | | |
| SPECIES | leaf Pondweed) and prevent infection by other exotic aquatics. | | |
| MAG'T | , , , | | |
| | 1. Control current invasives species by monitoring public landing (CB/CW) | Jordan Lake District | ongoing |
| | , , , | Adams LWCD, WDNR | |
| | 2. Continue to evaluate ongoing plan for invasive species control & prevention. | Jordan Lake District | ongoing |
| | Consider diver-assisted suction harvesting for scattered invasives. | Adams LWCD, WDNR | |
| | 3. Update/inventory lake for population for native weevils that attack EWM. | WDNR | Drop |
| | 4. Increase CB/CW hours of monitoring by 10% | Jordan Lake District | 2021 |
| | | 23.44.1 24.10 2.511101 | |

| cit, train & schedule group of volunteers to monitor lake for invasive species. Let a trial process of hand-harvesting and compare to results of chemical reatment for management of Eurasian watermilfoil. It, train & schedule group of volunteers to participate in WDNR's Clean Boats, Waters program. If volunteers become unavailable, apply for WDNR grant to cet CBCW monitoring with hired personnel. Let periodic aquatic plant survey every 5 years. With Adams County Parks to improve landing dock and parking area to infection through boat ramp traffic. It infection through boat ramp traffic. It instance of EWM increase, mechanical harvesting will be explored further a scheduling, costs & maintenance. Ct Advisory Committee to develop plan for management of new lives or reintroduction of prior invasives. | Jordan Lake District Adams LWCD, WDNR Jordan Lake District Adams Parks | ongoing 2009 completed ongoing ongoing 2021 as needed |
